

REMARKS / ARGUMENTS

Claims 1-14 are pending as in the original patent. Claims 15-22 as in the original patent are cancelled. Claims 23-30 as added in this application are pending.

The Office Action objects that the specification fails to contain the notice as required under 37 CFR 1.77(a) of prior issued application 09/333,669. The specification has been amended to include the notice suggested in the Office Action.

The Office Action also objects that the supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) is defective. A further supplemental reissue oath/declaration is filed with this response to the Office Action including the missing language noted in the Office Action.

Claims 15-22 are being canceled since they are the same as claims 15-22 of U.S. Patent No. RE37,549 which issued from the first reissue Application No. 09/333,669.

Attached hereto is a marked-up version of the changes made to the claims by the current amendment in relation to the original patent. The attached page is captioned **"Version with markings to show changes made."**

For the reasons above, the Applicants submit that the claims as amended are allowable and respectfully request that a timely Notice of Allowance be issued in this case.

Respectfully submitted,

MAHENDRAN et al.
